

Webinar 5: Further reading and useful links

August 2020

These links and further reading are designed to accompany Webinar 5: Sharing your findings, one of a series of webinars designed to help widening participation practitioners, managers and researchers to get the most out of the Toolkit for Fair Access.

Further reading

NFER offers tips on writing up your findings in their guide **How to...write up your research** <https://www.nfer.ac.uk/how-to-write-up-your-research-some-tips-to-get-you-started/>

The Government Statistical Service's **Introduction to data visualisation** is designed for producers of official statistics, but is an accessible and comprehensive guide that will be useful for anyone looking to visualise quantitative data. <https://gss.civilservice.gov.uk/policy-store/introduction-to-data-visualisation/>

The Office for National Statistics also provides guidance on **Data visualisation**, including creating charts, tables and best practice in using colour. <https://style.ons.gov.uk/category/data-visualisation/>

They also offer good practice **Infographic guidelines** <https://theidpblog.files.wordpress.com/2013/10/infographic-guidelines-v1-0.pdf>

Evergreen Data's regular **blog** provides practice advice and suggestions for improving your reporting and data presentation <https://stephanieevergreen.com/blog/>

Commissioned by the Wellcome Trust, **Poster design: A practical guide for researchers** is a good introduction to graphic design, with guidance on topics such as text, colour and layout as well as imagery including data visualisation. https://issuu.com/designscience/docs/wellcome_trust_poster_guide
